

LIMITLESS LEADERSHIP™

# Limitless Leadership™ PATHWAY

Shift from the overwhelm of a management mindset to a clearer and focused leadership mindset.

Increase motivation and performance of your team and organisation!

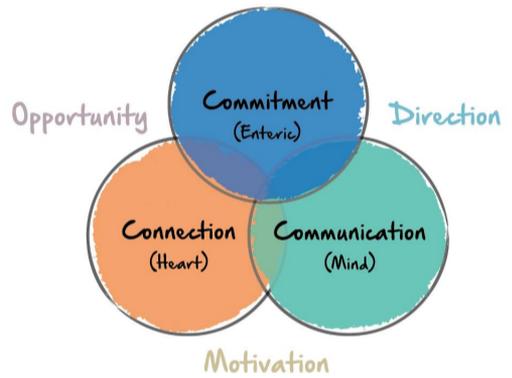

Renée Giarrusso: Leadership and Communications Expert

Working with thousands of executives and teams over the last 15 years we find that many encounter the following challenges:

- They are time poor and skill stretched
- They want to work “on” their team and not just “in” their team
- They need to resolve the unresolved people problems and deal with change
- They are transitioning from a management mindset to a leadership mindset
- Preparing for a future that may or may not exist that needs focus
- They want to increase their coaching and mentoring capability
- Taking on a team with little or no people management experience
- Succession planning their leadership gets missed
- A need to become more agile and co-creative
- They need to increase overall level of leadership and results
- They need to enhance their leadership to shape the future and be limitless!

Our **Limitless Leadership** program is a strategic pathway with regular workshops, coaching and immersions to ensure learnings are embedded back on the job and are applied in real time with real situations. We take you from where you are on the ladder below to being **STAND OUT** and **LIMITLESS** where you lead your organisation and industry.

**Leadership is a journey, one that needs to be constantly built on, improved, changed and forever evolving - there is no final destination.**

We find by shifting your mindset and applying new ways of thinking and tools we elevate many executives from below the line, in the above model, to above the line where they become leaders of teams and leaders of leaders and industry.

In the Limitless leader value model above the journey is outlined and the impact that is made at each stage with behaviours and choices that go along with each one.

To go from a ‘manager’ mindset to a ‘leader’ mindset takes skill, will and energy and more than just drive, ambition and some smarts. It all starts with self leadership and making a choice to lead. To create **Limitless Leadership**, leadership that never ends or stops growing and evolving, we need to look on the inside first and make a decision to commit, learn, unlearn and learn again.

**True commitment, effective communication and deep connection is vital.**

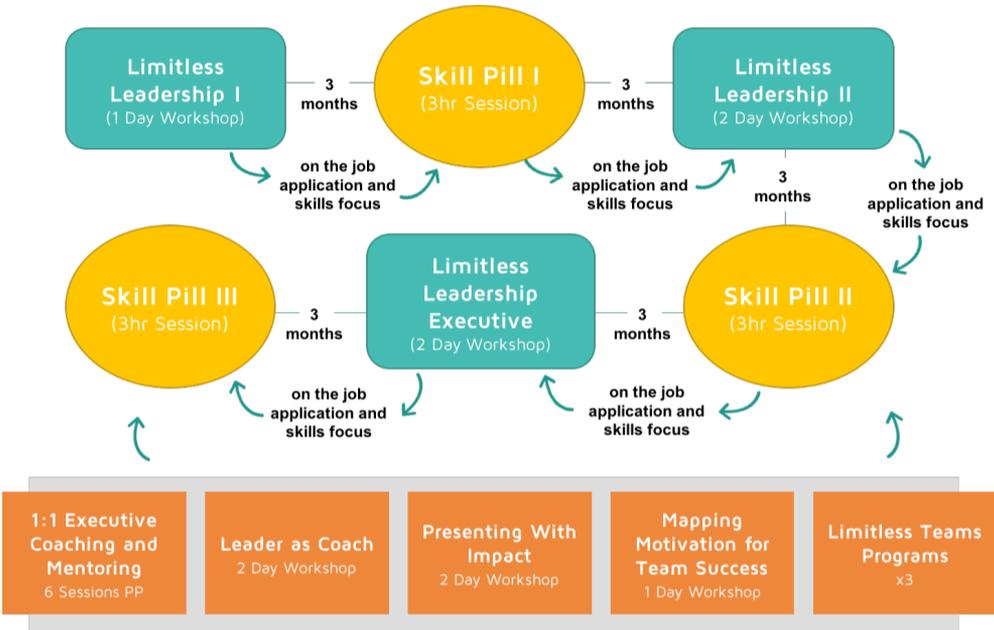

LIMITLESS LEADERSHIP™

The program consists of 3 workshops tailored to your needs and targeted at 3 separate levels:

The workshops are highly interactive and dynamic with 70% of time spent practising learnings and creating action plans to implement. To bolster on to learnings from the workshops we suggest mid workshop immersions where we work on real life scenarios in real time and add new learnings to apply. The 1:1 coaching and mentoring sessions provide a different forum to explore personal leadership growth at an even deeper level. This provides a holistic approach and ensures the workshop doesn't become an event.

These programs bolster onto the learning pathway
